

ART CYCLES FOR WISHES, HOPE & FAITH

**TO HELP RESEARCH TO FIND:
CURES, TREATMENTS
AND
“THE ELIMINATION OF CANCER”**

Art Cycles for Wishes, Hope & Faith:

To Help Research Find;

"Cures, Treatments and "Elimination" of Cancer"

Art has completed years of cycling to help people that are suffering. Now on June 10th 2024 Art Brochu at 80 years of age is hitting the road once again to raise awareness and donations for Albertans suffering or who may suffer from cancer. Through the top of the world research laboratories at the Alberta Community Cancer Centre's is the wishes, the hope and the faith that their findings will develop into cures, treatments, and finally elimination of this deadly disease, "Cancer"

His first stop will be; Fort McMurray, and over the next 2 months he will cycle and visit 17 different Community Cancers Centres throughout Alberta finishing up in Medicine Hat on July 29th 2024

From the 10th June 2024, through 29th July 2024, Art will cycle over two thousand kilometers throughout Alberta introducing the work of, Alberta's Community Cancer Centre's. He will also speak to; the statistics of Cancer, the advancements and how much all Albertans are needed to help and eventually eliminate Cancer and the suffering that so many people are going through, plus, the relationships to the well being of families and communities. Also, how wonderful and dedicated these people are with the work and research their completing. "We All" are needed to be part of the answers that are required to end this suffering. The presentations will be short, relaxed, friendly and informational as Cancer effects everyone.

Over the years Art has cycled in numerous Gran Fondo's throughout the country , plus a number of national and international races. He has been nominated for the Alberta Hall of Flame, the order of Canada and has been invited to qualify for world cycling championships. However, his main focus is to raise awareness plus the monies that is required to help through research to reduce the pain and suffering that Cancer is affecting so many people in this country. He's not sure but doesn't think that there is any family that has not been affected by cancer in one way or another. Cancer also does not discriminate who it affects, old, young, man, woman and/or child it doesn't seem to care. It also does not discriminate on the different parts of the body; therefore, so much research is required to find the right cures and treatments.

Alberta Community Cancer Centre's are set up throughout the province to provide research, treatment, and continuing care for the thousands of Albertans that have been

and will be diagnosed with cancer. Thousands of people are suffering from so many different types of cancers and are going through fear, pain and the unknown of what the future may have in store for them, even if there is a future. It's the suffering and the unknown that they are going through that Art's heart and mind is torn apart by. It's been Art's Wish, Hope & Faith that we can all come together and help to do whatever it takes to find the cures and treatments so that all cancers can be eliminated.

Why is Art so adamant to find the cures, treatment and elimination of Cancer? It started at around age 10, he lost his grandmother to cancer, from there at age 20, lost his mother to cancer, seven months after Art and Beth's first son was born he went through major surgery for cancer, then in 2021 his wife Beth went through surgery for cancer, his sister had beat cancer three times but as of September 7th 2023 the fourth round of cancer took her life, he now has a very close cousin waiting to go home and be with the Lord from cancer. As you can see, we need to find a cure and eliminate this horrible disease, "Cancer"

What a country Canada would be if everyone came together with a mind-set of doing everything possible to help each other. (It's already the best country in the world, with out doubt; He know that because in the military he has served throughout the world; however, it could even be better, right?) It doesn't matter who your neighbour is, it just matters that we respect and help each other.

Art will be at each of the Alberta community Cancer Centre; however, everyone can help Art to fulfil his wish and hope by; sponsoring and/or providing a space and hosting an appearance. (BBQ, welcome group, or pot luck, meet and great, etc. "Invite your community to help" Bring everyone together! Below are details of sponsorship and the communities Art will be visiting. You will also see on the following schedule the dates that Art will be cycling within or close to your community and visiting the different Alberta Cancer centre's plus he will be spending a few days in each area so should you wish to have him visit your; (company organization) please let him know so we can set it up, please help. That way, Art's faith in finding cures and eliminate cancer will come true.

Thank you for your help and caring.

Art Brochu, Veteran, Cyclist,
